Note: 51 state/territorial ADAPs reported data. American Samoa, Federated States of Micronesia, Guam, Marshall Islands, Northern Mariana Islands, Republic of Palau, Virgin Islands (U.S.), and West Virginia did not respond. A dash (--) indicates the state/territorial ADAP did not report data.

Direct Purchase (full-pay medication program):
ADAPs using this model centrally purchase
and dispense medications for their full-pay
medication program clients through their own
340B pharmacy or 340B contract pharmacy
service providers.

Rebate (full-pay medication program): ADAPs that reimburse pharmacies at usual-and-customary rates (non-340B) for drugs dispensed to full-pay medication program clients; ADAP then invoices drug manufacturers for rebates down to the 340B amount (plus any applicable supplemental discounting) for the units dispensed.

Dual (full-pay medication program): ADAPs that purchase and dispense medications through their own 340B pharmacy or 340B contract pharmacy service providers for full-pay medication program clients AND reimburse retail pharmacies at non-340B rates for some full-pay medication program clients and file rebate claims with manufacturers.

Direct Purchase (ADAP-funded insurance program): ADAPs using this model centrally purchase and dispense medications to insured clients through their own 340B pharmacy or 340B contract pharmacy service providers, make cost-sharing assistance payments (deductibles, copayment, or coinsurance) at the point of sale, with the pharmacy submitting claims to clients' insurers for reimbursement and program income generation.

Dual (ADAP-funded insurance program): ADAPs that use both direct purchase AND rebate mechanisms for their insured clients.
