

2019 National HIV and Hepatitis Technical Assistance Meeting
“Leveraging Integrated Programs to End the Epidemics NOW”
Washington, DC | December 3–5, 2019
AGENDA

STATEMENT OF INCLUSION

NASTAD promotes and recognizes principles of fairness, health equity, and social justice in relation to, and across, intersections of race, age, color, disability, faith, religion, ancestry, national origin, citizenship, sex, sexual orientation, gender identity, gender expression, and all other identities represented among our diverse membership. By appreciating the importance of inclusion, we acknowledge that the collective and individual talents, skills, and perspective of members and meeting attendees fosters a space of belonging, collaborative practice, innovation, and mutual respect.

Agenda Background:

Roundtable discussions and concurrent breakout sessions are split into the following tracks:

- ADAP
- Care
- Data and Surveillance
- Prevention

There is a specific Hepatitis Pathway with focused sessions across the Care, Data and Surveillance, and Prevention breakout sessions. Each track will also address cross-cutting themes of Health Equity, Biomedical Interventions, Social Services, and Policy.

Please download the NASTAD meeting app for any further updates.

Pre-Meeting — MONDAY, December 2, 2019

4:00 – 6:00 PM

Registration

Room: West Promenade Registration

DAY 1 — TUESDAY, December 3, 2019

7:30 AM – 5:00 PM

Registration

Room: West Promenade Registration

8:00 AM – 6:00 PM

Exhibit Hall Open

Room: Ambassador Ballroom

8:00 – 9:00 AM

Breakfast (Provided)

Room: Regency Ballroom

8:00 – 9:00 AM

NASTAD University Sessions for New Health Department Staff

NASTAD University is intended to create an opportunity for new health department staff to learn about NASTAD, understand the various technical assistance structures available to them in their roles, and learn from veteran health department staff across HIV and hepatitis prevention and care to better support them and their programs. This is a closed session for those who have pre-registered.

Room: Executive Room

9:00 – 9:40 AM

Welcome and Opening Remarks: Ending the Epidemics – Federal Update

In addition to welcome remarks from NASTAD leadership and the NASTAD Board of Directors, the Department of Health and Human Services (HHS) will present the overall federal government vision the *Ending the HIV Epidemic: A Plan for America* (EtHE) and updates to the National Viral Hepatitis Action Plan.

Speakers:

- Johanne Morne, New York State (video)
- Tammy Beckham, Department of Health and Human Services (HHS)
- Natalie Cramer, NASTAD

Room: Regency Ballroom

9:40 – 11:00 AM

Plenary: Trauma Informed Approaches to Prevention and Care Services

An innovative dialogue regarding the role of trauma and trauma-informed prevention and care services in ending the intersecting epidemics of HIV and hepatitis. This plenary will explore how federal and state public health officials, as well as providers, can better establish synergy to implement trauma informed approaches in their work.

LEVERAGING INTEGRATED PROGRAMS TO END THE EPIDEMICS NOW

Send your favorite quotes and photos from #NASTADTA19 to communications@NASTAD.org!

Hashtag: #NASTADTA19 | Twitter: @NASTAD | Instagram: @NASTAD1992 | Facebook: facebook.com/NASTAD

11:00 – 11:15 AM

11:15 AM – 12:15 PM

Speakers:

- Dr. Sabrina Matoff-Stepp, Health Resources & Services Administration (HRSA) Office of Women's Health
- Dr. Nathaniel Currie, California State University Dominguez Hills
- Chelsea Betlow, New Jersey
- Laura Pegram, NASTAD

Facilitator:

- Mahelet Kebede, NASTAD

Room: Regency Ballroom

Break

Roundtable Discussions

Informal discussion will be centered around cross-cutting topics. These discussions will be facilitated by NASTAD staff.

ADAP: ADAP Formulary Development

This roundtable discussion will focus on promising practices and challenges pertaining to formulary development, financial sustainability, and community engagement.

Facilitators:

- Mahelet Kebede, NASTAD
- Milanes Morejon, NASTAD

Room: Congressional A Room

Care: Engagement in HIV and Hepatitis Care for People Living with HIV (PLWH)

This roundtable discussion will focus on promising practices to engage and retain PLWH, including those at risk for or co-infected with hepatitis, throughout the care continuum. Discussion will also address working with providers to deliver inclusive and effective care.

Facilitators:

- Dan Czajka, NASTAD
- Maegan Samuel, NASTAD

Room: Congressional B Room

Data and Surveillance: Leveraging Qualitative Data for HIV and Hepatitis Program Strengthening

This roundtable discussion will explore ways to collect and leverage qualitative data from persons living with HIV and/or hepatitis and their providers to strengthen the programmatic response to ending the intersecting epidemics. Two approaches to collecting and utilizing qualitative data, including measuring stigma or other prejudicial behaviors that discourage engagement in care, will be presented and followed by a feedback discussion on other innovative ways to strengthen qualitative data use for programming.

LEVERAGING INTEGRATED PROGRAMS TO END THE EPIDEMICS NOW

Send your favorite quotes and photos from #NASTADTA19 to communications@NASTAD.org!

Hashtag: #NASTADTA19 | Twitter: @NASTAD | Instagram: @NASTAD1992 | Facebook: facebook.com/NASTAD

Facilitators:

- Katie Burk, San Francisco
- Alexander Perez, NASTAD
- Jasmine West, NASTAD

Room: Senate Room

Prevention: Developing an Anti-Racist Workforce

This roundtable discussion will center conversations about critical and courageous approaches to fostering an anti-racist workforce. The session will challenge attendees to address structural practices that exist within their health department's prevention program. Attendees will begin to brainstorm innovative prevention strategies centered on issues of racism in the workplace. This dialogue will include policy considerations, staff cross-training, lived experiences, cultural sensitivity, and minority leadership development.

Facilitators:

- Jennifer Flannagan, NASTAD
- Vrushabh Shah, NASTAD

Room: Cabinet Room

Hepatitis B Elimination Discussion

This roundtable discussion will provide participants the opportunity to discuss opportunities and challenges in the elimination of hepatitis B infection.

Facilitator:

- Boatemaa Ntiri-Reid, NASTAD

Room: Forum Room

Hepatitis C Elimination Discussion

This roundtable discussion will provide participants the opportunity to discuss opportunities and challenges in the elimination of hepatitis C infection.

Facilitator:

- Isabel Lechuga, NASTAD

Room: Executive Room

12:15 – 1:30 PM

Lunch (On Your Own)

1:30 – 2:45 PM

Concurrent Breakout Sessions (A)

ADAP: Program Income: ADAP Considerations and Collaborations with 340B Entities

This session will detail considerations for generating program income, promising practices from ADAPs earning program income, and how to work across Ryan White HIV/AIDS Program (RWHAP) Parts and other 340B entities.

LEVERAGING INTEGRATED PROGRAMS TO END THE EPIDEMICS NOW

Send your favorite quotes and photos from #NASTADTA19 to communications@NASTAD.org!

Hashtag: #NASTADTA19 | Twitter: @NASTAD | Instagram: @NASTAD1992 | Facebook: facebook.com/NASTAD

Speakers:

- Laine Snow, New Mexico
- Jonathan Livingston, Oregon
- Tim Horn, NASTAD

Facilitator:

- Mahelet Kebede, NASTAD

Room: Empire Ballroom

Care (Hepatitis Pathway): It's About More Than Meds: Improving Hepatitis Outcomes and Reducing Stigma for People Who Use Drugs (PWUD)

This session explores capacity building activities and harm reduction strategies aimed to end the hepatitis epidemic. Presenters will discuss health initiatives designed to deliver stigma-free care to people who use drugs as well as integrating harm reduction to prevent new infections and reinfection. The session will also provide approaches to meaningfully engage clients in program activities and services.

Speakers:

- Alison Gaye, Louisiana
- Shannon Mason, New York
- Heather Bush, Utah
- Ethan Farnsworth, Utah
- Emalie Hurliaux, Washington
- Jon Stockton, Washington

Facilitator:

- Dan Czajka, NASTAD
- Virgil Hayes, NASTAD

Room: Congressional A Room

Data and Surveillance: Leveraging Community-level Risk Information and Geo-mapping to Assess Vulnerability for HCV and HIV

Health departments strive to better understand where HCV and HIV co-occur but face challenges when surveillance data does not exist or data systems do not align. Surveillance strategies including vulnerability assessments, and tools including geographic information systems (GIS), are valuable in mapping disparate health issues and the social determinants of health that contribute to poor health outcomes. This session explores how new and existing data can be leveraged for effective identification of and resource allocation for HCV and HIV.

Speakers:

- Chip Allen, Ohio
- Katharine Howe, Rhode Island
- Lindsey Sizemore, Tennessee

Facilitator:

- Angela Johnson, NASTAD

Hashtag: #NASTADTA19 | Twitter: @NASTAD | Instagram: @NASTAD1992 | Facebook: facebook.com/NASTAD

Room: Executive Room

Prevention: Status Neutral Approaches – Opportunities in Implementation

This session will provide an overview of status neutral services navigation, a multidirectional framework originally developed by the New York City Department of Health and Mental Hygiene, for providing services after an HIV test, successes and challenges around implementation, and how such a framework can help in EtHE planning. The session will highlight jurisdictions that have successfully implemented the status neutral approach, including through program oversight and partner contract processes.

Speakers:

- Patrick Stonehouse, Chicago
- Avemaria Smith, District of Columbia

Facilitator:

- Jennifer Flannagan, NASTAD

Room: Congressional B Room

2:45 – 3:00 PM

Break

3:00 – 4:15 PM

Concurrent Breakout Sessions (B)

ADAP: Update on the ADAP Crisis Task Force and the 2020 Manufacturer Agreements

Open to ADAP Coordinators and associated health department staff only, this session will provide a detailed discussion of confidential ADAP drug pricing information, including the 2020 agreements with all manufacturers, and current challenges and opportunities associated with rebate claim submissions.

Speaker:

- Tim Horn, NASTAD

Facilitator:

- Bianca Ward, NASTAD

Room: Empire Ballroom

Care: Addressing Intangible Barriers to Improve Client Health Outcomes

This session will provide health departments with tools and strategies to address the social and structural barriers patients face when engaging with the health service delivery infrastructure. The discussion will survey issues related to stigma in service delivery, trauma informed care, community engagement, and health literacy/education.

Speakers:

- Kimberley Truss, Tennessee
- Rafael Gonzalez, San Francisco
- Robbyn Kistler, Kaiser Family Foundation

Facilitator: Alexander Perez, NASTAD

Room: Regency Ballroom

Data and Surveillance: Tools and Innovations in Data to Care (D2C) Approaches

This session will highlight innovative ways that health departments use surveillance data and/or other sources of health department data to enhance linkage and re-engagement in care for HIV. The session will explore an HIV program process improvement project for D2C and a walkthrough of NASTAD's online "[Data to Care Hub](#)" and how health departments can utilize these resources for enhancing their own D2C programs.

Speakers:

- Rachel Kush, New Hampshire
- Hannah Bowen, New Hampshire
- Melissa Richards, New Hampshire
- Erin Bascom, NASTAD

Facilitator:

- Erin Bascom, NASTAD

Room: Executive Room

Prevention (Hepatitis Pathway): Old School, Meet New School: Implementing and Integrating Harm Reduction in Health Departments and Developing Standards and Best Practices for Syringe Service Programs (SSPs)

This session will highlight NASTAD and Centers for Disease Control (CDC) efforts to develop SSP performance standards and best practices that aim to ensure program success and fidelity with harm reduction practices and policies. This session will identify opportunities and challenges of implementing harm reduction programs, the importance of community-centered and community-driven processes to inform health department policies around harm reduction, and what the future of harm reduction in health department settings could, and even should, be.

Speakers:

- Thaddeus Pham, Hawaii
- Aimee Shipman, Idaho
- Joshua Swatek, New Mexico
- Katie Burk, San Francisco

Facilitator:

- Laura Pegram, NASTAD

Room: Cabinet Room

4:15 – 4:30 PM

Break

4:30 – 5:30 PM

Affinity Group Sessions with Federal Partners – Discussion on Current Programmatic Challenges and Opportunities

Open to health department staff and federal partners only.

HIV Data, Surveillance, and Prevention session with CDC Staff

and care to better support them and their programs. This is a closed session for those who have pre-registered.

Room: Executive Room

9:00 – 10:00 AM

Plenary: Treatment Update

Medical providers will provide an update on new treatments available for HIV and hepatitis.

Speakers:

- David Hardy, HIV Medicine Association (HIVMA)
- Kristen Marks, AASLD/IDSA HCV Guidance Panel

Facilitator:

- Boatemaa Ntiri-Reid, NASTAD
- Tim Horn, NASTAD

Room: Regency Ballroom

10:00 – 10:15 AM

Break

10:15 – 11:30 AM

Roundtable Discussions

Informal discussion will be centered around the Administration's *Ending the HIV Epidemic: A Plan for America* (EtHE), jurisdictional ending the HIV epidemic initiatives, and hepatitis elimination. These discussions will be facilitated by NASTAD staff.

Ending the HIV Epidemic - ADAP Considerations

The purpose of this roundtable discussion is to discuss the opportunities and challenges that the Administration's EtHE presents ADAPs in achieving optimal viral load suppression among their clients.

Facilitator:

- Bianca Ward, NASTAD

Room: Congressional A Room

Ending the HIV Epidemic - HIV Care Considerations

The purpose of this roundtable discussion is to allow jurisdictions to share the opportunities and challenges that the Administration's EtHE presents to health departments' HIV care programs. This discussion will focus on ways in which health department staff can work to address the pillars "Diagnose all individuals with HIV as early as possible" and "Treat people with HIV rapidly and effectively to reach sustained viral suppression" via RWHAP Part B programs and other partners in HIV care delivery.

Facilitators:

- Rosy Galván, NASTAD
- Kristina Santana, NASTAD

Room: Congressional B Room

Ending the HIV Epidemic - HIV Data/Surveillance Considerations

The purpose of this roundtable discussion is to allow jurisdictions to share the opportunities and challenges that the Administration's EtHE presents to health departments' HIV surveillance and epidemiology programs. This discussion will focus on ways in which health departments' epidemiology, data, and surveillance staff can work to address the pillar, "Responding Quickly to HIV Outbreaks," and quantify their jurisdictions' success in achieving the goals identified by the EtHE initiative and their jurisdiction-specific ending the epidemic plans.

Facilitators:

- Andrew Zapfel, NASTAD
- Erin Bascom, NASTAD

Room: Cabinet Room

Ending the HIV Epidemic – HIV Prevention Considerations

The purpose of this roundtable discussion is to allow jurisdictions to share the opportunities and challenges that the Administration's EtHE presents to health departments' HIV prevention programs. This discussion will focus on ways in which health department staff can work to address the pillars "Diagnose all individuals with HIV as early as possible," "Prevent new HIV transmissions by using proven interventions, including PrEP and syringe services programs (SSPs)," and "Respond quickly to potential HIV outbreaks to get needed prevention and treatment services to people who need them."

Facilitators:

- Emily McCloskey, NASTAD
- Vrushabh Shah, NASTAD

Room: Senate Room

HBV Elimination Discussion

The purpose of this roundtable discussion is to provide an opportunity for participants to identify key strategies to eliminate HBV infection through planning and implementation of prevention, including vaccination; testing; and treatment strategies.

Facilitator:

- Jasmine West, NASTAD

Room: Forum Room

HCV Elimination Discussion

The purpose of this roundtable discussion is to provide an opportunity for participants to identify key strategies to eliminate HCV infection through planning and implementation of prevention; testing; and treatment strategies.

Facilitator:

- Isabel Lechuga, NASTAD

Transitional Break

12:00 – 1:15 PM

Lunch (Provided) and Optional Networking Meetings

ADAP Crisis Task Force

This is a closed session for ADAP Crisis Task Force Members only.

Facilitator:

- Tim Horn, NASTAD

Room: Executive Room

Gay Men's Health Equity Work Group

NASTAD staff will facilitate a conversation with health departments on current work in prevention and care for gay, bisexual, and other men who have sex with men (GBM) appreciating the diverse needs of this population.

Facilitator:

- Andrew Zapfel, NASTAD

Room: Congressional A Room

Health Equity Initiative: NASTAD Office of Minority Health Project

Participants who attended one of the five Health Equity Initiative regional meetings in Austin, Columbia, Columbus, Boston, or Seattle are invited to join an informal conversation focusing on best practices and resources for collaboration across state health equity/minority health, HIV, and hepatitis programs. Join us for lunch and hear about highlights from the other four meetings.

Facilitators:

- Edwin Corbin-Gutierrez, NASTAD
- Angela Johnson, NASTAD

Room: Congressional B Room

NASTAD Minority Leadership Program (MLP)

This informal gathering will serve as an opportunity to engage MLP alumni and other public health professionals of color interested in learning more about NASTAD's Minority Leadership Program.

Facilitators:

- Rosy Galván, NASTAD
- Bianca Ward, NASTAD

Room: Regency Ballroom

NASTAD University

NASTAD University is intended to create an opportunity for new health department staff to learn about NASTAD, understand the various technical assistance structures available

to them in their roles, and learn from veteran health department staff across HIV and hepatitis prevention and care to better support them and their programs. This is a closed session for those who have pre-registered.

Room: Senate Room

Raising the Voices of People Living with or Cured of Hepatitis

Patient advocates are key players in state and local hepatitis elimination planning processes as several jurisdictions are looking for ways to raise their voices. Learn from partners and jurisdictions to hear how they are building patient advocacy infrastructure and giving health departments ideas about how to engage with viral hepatitis patients and survivors to inform the public health response to eliminate hepatitis in communities across the United States.

Speakers:

- Lauren Canary, National Viral Hepatitis Roundtable
- Robin Lord Smith, National Viral Hepatitis Roundtable
- Rhea Racho, Hepatitis B Foundation
- Kate Moraras, Hepatitis B Foundation
- Maureen Kamischke, Hepatitis B Foundation
- Katie Burk, San Francisco

Facilitator:

- Jasmine West, NASTAD

Room: Empire Room

Vicarious Trauma in the Ending the Epidemics Era

This informal, facilitated conversation will include a brief overview of vicarious trauma, followed by a discussion around what vicarious trauma looks like in the HIV and hepatitis workforce, especially with the call to action to end the epidemics, as well as potential ways to mitigate experiences of vicarious trauma.

Facilitator:

- Mahelet Kebede, NASTAD

Room: Forum Room

1:15 – 2:30 PM

Concurrent Breakout Sessions (C)

ADAP: Preparing for Long-Acting Injectables: Considerations for ADAPs and RWHAP Part B Programs

The first long-acting injectables for HIV treatment are expected to be approved by the end of 2019. This session will provide a detailed overview of these products, including important formulary, cost, procurement, and coverage considerations for ADAPs and RWHAP Part B programs. Specific topics to be explored include: client demand (including results from a recent jurisdictional consumer needs assessment); supply and payment chain considerations; and RWHAP Part B program and ADAP best practices associated with physician-administered drugs (e.g., Trogarzo).

- Tim Horn, NASTAD

Facilitator:

- Milanes Morejon, NASTAD

Room: Empire Ballroom

Care: Immigration & Customs Enforcement (ICE), Prisons, and Jails: Strategies to Maintain Care for People Currently in or Being Released from Detention Centers

The goal of this session is to provide an overview of strategies used to ensure health equity and care to PLWH who are justice-involved, incarcerated, and in immigrant detention. The conversation will focus on creative, strength-based, public health solutions for settings rampant with institutional barriers, trauma, and restrictions.

Speakers:

- Prabhu Gounder, Los Angeles
- Karolina Lopez, Mariposas Sin Fronteras
- Maritza Vallery, Southern Arizona AIDS Foundation

Facilitator:

- Rosy Galván, NASTAD

Room: Senate Room

Data and Surveillance: Ensuring the Collection and Use of Sexual Orientation and Gender Identity Data

Comprehensive data is critical for policy and programming yet is often lacking for underserved communities. How we collect, disseminate, and use that data for decision making may also be confusing to our stakeholders. This session will showcase how different health departments and organizations use LGBTQ survey instruments to collect data, disseminate findings effectively, and develop effective programs. The session will also provide tools for participants to think critically about the data they collect and how it used for decision making and will include updates to initiatives including the Medical Monitoring Project and the 2020 Behavioral Risk Factor Surveillance System (BRFSS).

Speakers:

- Thaddeus Pham, Hawaii
- Andrew Zapfel, NASTAD

Facilitator:

- Mike Weir, NASTAD

Room: Cabinet Room

Prevention (Hepatitis Pathway): Models for Navigation Services

This session will highlight the development and implementation of models for peer and community patient navigation programs for people at high risk of hepatitis and/or HIV. These programs will speak to their navigation program models and services with a focus on improving hepatitis B and C care through competent care coordination services and addressing the importance of “meeting clients where they are.” Attendees will learn about strategies, resources and tools to assist navigators to help patients overcome cultural and health systems barriers to get the prevention, care and treatment services they need. Attendees will have the opportunity provide feedback on a hepatitis patient navigation program model, toolkit and training dissemination plan that will be available to national health departments in 2020.

Speakers:

- Nirah Johnson, New York City
- Umaima Khatun, New York City
- Thomas Bertrand, Rhode Island
- Colleen Daley Ndoye, Rhode Island

Facilitator:

- Jasmine West, NASTAD

Room: Executive Room

2:30 – 2:45 PM

Break

2:45 – 4:00 PM

Concurrent Breakout Sessions (D)

ADAP: Modernizing Your ADAP: 2019 State Examples to Leverage Dental and HCV Service Options

This session will cover ways in which jurisdictions can work to modernize their ADAP and leverage new opportunities to provide more comprehensive services. First, a presentation on innovative ways to increase HCV direct-acting antiviral (DAA) uptake among ADAP clients who are living with HIV and HCV, such as inclusion on the ADAP formulary, a streamlined process for accessing DAA coverage, and informing providers about the availability of DAAs through ADAP. Second, the session will include a presentation on an ADAP-designed dental plan and demonstrate how its implementation is ideal for ADAPs seeking to cover the oral health needs of PLWH and/or to outsource the administrative tasks of coverage determination and benefits coordination, which often lie outside the expertise of ADAP staff.

Speakers:

- Jimmy Borders, Arizona
- Alicia Cooke, Louisiana
- Mary Bahr, Maryland

Facilitator:

- Bianca Ward, NASTAD

Room: Empire Ballroom

Care (Hepatitis Pathway): Integrating HCV Into Ending the HIV Epidemic Planning

PLWH are disproportionately impacted by hepatitis. Hepatitis progresses faster and causes more liver-related damage among PLWH than people living without HIV. In this session, presenters will discuss the creation of "micro-elimination" programs designed to integrate HCV services into the HIV care infrastructure and incorporate HCV into HIV data and surveillance. Additionally, the presenters will share D2C strategies to reengage HIV/HCV co-infected individuals in care.

Speakers:

- Danica Kuncio, Pennsylvania
- Antoine Brantley, Louisiana
- Jessica Fridge, Louisiana
- Debbie Isenberg, NASTAD Consultant

Facilitator:

- Dan Czajka, NASTAD

Room: Executive Room

Data and Surveillance: HIV Cluster Detection and Response: Community Engagement Lessons Learned

This session will highlight challenges and opportunities in planning and implementation of HIV molecular surveillance activities within health departments. The discussion will include a focus on community engagement and policy implications for cluster detection and response, its role in ending the HIV epidemic, and potential application of lessons learned to future cluster detection and response efforts in HCV.

Speakers:

- Biz McChesney, Iowa
- Emalie Hurliaux, Washington

Facilitator:

- Dori Molozanov, NASTAD
- Erin Bascom, NASTAD

Room: Forum Room

Prevention: HIV and HCV Testing Updates and Guidance

This session will explore key insights and updated guidelines surrounding HIV and HCV testing. The session will highlight: current tools that have proven to be effective for priority populations; identify champions on the ground that can support peer-to-peer technical assistance; and explore remaining gaps that need to be addressed if we are to reach no new HIV/HCV infections. The session will also cover updated policy relevant to HIV/HCV testing and serve as a space to brainstorm unique strategies to increase capacity by leveraging existing resources.

Speakers:

- Arlis Jenkins, Arizona
- Rachel Stallings, Virginia
- Liisa Randall, NASTAD Consultant

Room: Senate Room

Data and Surveillance (Hepatitis Pathway): Zero to Sixty: Building Hepatitis Surveillance Infrastructure

This session will use a rapid-fire method to highlight a range of presentations related to using HCV surveillance and SSP data for action. Presentations will cover the role of DIS in HCV surveillance and overdose prevention, using HCV surveillance data for program planning and implementation, and evaluating an SSP to address the needs of PWUD. Jurisdictions will take away key pieces in understanding how to implement surveillance infrastructure.

Speakers:

- Sophie Lewis, Massachusetts
- Teresa Juridico, Michigan
- Jessica Schwartz, New York City
- Danica Kuncio, Philadelphia
- Amelia Prebish, Utah

Facilitator:

- Isabel Lechuga, NASTAD

Room: Congressional A Room

Prevention: Same-Day, Pharmacy-Based PrEP Delivery and Financing

This session will compare innovative models to provide same-day PrEP and leverage pharmacist expertise in PrEP care. The models discussed increase uptake, provide the infrastructure needed to support PrEP persistence, and reduce the cost of providing PrEP care. Speakers will share cutting-edge implementation models and discuss how their programs are financing these innovative strategies.

Speakers:

- Rupa Patel, Washington University of St. Louis
- Marisa Ramos, California
- Edwin Corbin-Gutierrez, NASTAD

Facilitator:

- Vrushabh Shah, NASTAD

Room: Executive Room

10:20 – 10:30 AM

Transitional Break to Closing Plenary

10:30 AM – 12:00 PM

Plenary: Strengthening Community Engagement with Integrated Programs

Community engagement, particularly with those underserved in the HIV and hepatitis response, is critical. This plenary will focus on ways health departments can strengthen their community engagement in the development and implementation of policies and programs, particularly with a focus on EHE and hepatitis elimination planning.

Speakers:

- Clifton Garmon, Vocal NY
- Dominique Morgan, Black and Pink, Inc
- Mariah Wilberg, Minnesota

Facilitator:

- Marlene McNeese, Houston

Room: Regency Ballroom

12:00 – 12:30 PM

Call to Action; Closing Remarks; Evaluations

Speaker:

- Amy Killelea, NASTAD
