Mission	<ul style="list-style-type: none">• Achieve an AIDS Free county by 2020 (No new AIDS cases)• Reduce the rate of new HIV infections by 75% by 2020
Vision	<ul style="list-style-type: none">• We envision a community where new HIV infections are rare, people living with HIV receive the care they need and young people can grow up in a world without AIDS.
Goals	<ul style="list-style-type: none">• Diagnose the undiagnosed early in the course of the infection• Link to & engage HIV-infected persons in care within 48 hours• Achieve 95% viral load suppression rate for pts. receiving HIV care• Support efforts to reduce HIV transmission among high-risk groups• Build capacity for PrEP service delivery
Strategies	<ul style="list-style-type: none">• Normalize HIV Testing• Increase Access to PrEP (Pre-Exposure Prophylaxis)• Standardize Early Linkage to Care
HIV/AIDS in Pittsburgh & Allegheny County	<ul style="list-style-type: none">• 76% of all people living with HIV/AIDS in the eleven-county Southwestern PA region live in Allegheny County, making Pittsburgh the epicenter of HIV/AIDS in Southwestern PA• On average, 128 new HIV cases have been documented each year in Allegheny County since 2009• Allegheny General Hospital (Positive Health Clinic) and UPMC Presbyterian (PACT Clinic) have been treating HIV-infected individuals, insured and uninsured, since the late 1980s. They currently treat over 2,400 patients• Among those 2,400 patients, viral load suppression of those receiving ART ranges between 83 – 89%
