Presenters

Karen Robinson
HIV Community Programs Supervisor
HIV Client Services

Michael Barnes
Community Engagement Coordinator
HIV Prevention Services
Strategic Framework

*End AIDS Washington is the Foundation for Integrated Planning*

- **Planning Process**
  - Investment by DOH and Seattle TGA HIV Prevention and Care Service Delivery System

- **End AIDS Initiative**
  - Investments required by multiple systems

Integrated Planning and End AIDS Share Five Goals and Twelve Strategies
Goals of Integrated Plan Align with END AIDS
Washington

- ↓50% NEW HIV DIAGNOSES
- ↑80% SUPRESSED VIRAL LOAD
- ↓25% HIV MORTALITY
- ↓ HIV HEALTH DISPARITIES
- ↑ QUALITY LIFE WITH HIV
Integrated Plan and END AIDS Washington Share Strategies

- Reduce **Stigma**
- **Community Mobilization** of Persons Living with HIV (PLWH) and Persons at High Risk (PAHR) in Black and Hispanic Communities
- Implement Routine **HIV Screening**
- Increase Assess to **Transmission Barriers** including PrEP and Condoms
- Improve **Healthcare** for Sexual Minorities
- Improve Prevention and Care for **Substance Users**
- Reduce **Insurance** Barriers for PLWH & PAHR
- Increase **Housing** Options for PLWH
- Increase PLWH & PAHR Engaged in Comprehensive **Healthcare**
- Improve **Sexual Health** Education
- **Community Engagement** of PAHR and PLWH Communities
- **Data** to Care
Why Transition to Integrated Funding

- Client Engagement
- Economies of Scale
- Alignment of Services and Systems
Development of Funding Opportunity

- Concept Paper: HIV Community Services (2016)

- Request for Application (2016): Contracts Began 1 January 2017
19 Contracts
6 Agencies Care Only
4 Agency Prevention Only
9 Agencies Care and Prevention
Types of Services

Persons at High Risk
- Outreach
- Testing
- **PrEP Navigation**
- **Insurance Navigation**
- Community Engagement
- Condom distribution
- **Early Intervention Services**
  - Outreach, HE/RR, Linkage
  - Targeted Testing

Persons Living with HIV
- **Case Management**
- Medical Transportation
- Housing
- Food Bank/Home-Delivered Meals
- Linguistic Services
- Mental Health Services
- Substance Abuse Services
- **Early Intervention Services**
  - Outreach, HE/RR, linkage
  - Peer Navigation Services
Prevention & Care Integration Framing

Pre-RFA Prevention

- CDC Guidelines
- Few service categories
- Minimal Data Collection
- Minimal Standards
- Minimal Coordination by agencies
- Minimal Statewide Coordination

Post-RFA Prevention

- HRSA Guidelines
- Many service categories
- Clear Standards
- Clear Data Collection Requirements
- Clear Statewide Coordination

Key Services
- HIV Testing
- Prevention w/ Positives
- Condom Distribution

Up to us to decide how far along the continuum we move post-RFA prevention...

Prevention
Care

PAHR Services

Care

Continuum Of Program Guidance
Integrated Plan and Seattle TGA

- Collaborated on the Integrated Plan

- Coordinate service delivery
  - Some challenges with EIS dollars...

- Share data system
Using EIS Funds: Three Strategies

1. Highly targeted outreach & testing
   - Fund three CBOs
   - Dollars ‘bulk up’ outreach and testing efforts
   - If negative, moves to PrEP navigation

2. PLWH Peer Navigation
   - Seven agencies
   - Linkage, referral, health education and risk reduction
   - Outreach if out of care

3. DIS
   - Outreach, testing, health education
   - If positive, referral to care, cm, peer navigation
   - If negative, referral to PrEP
The diagram below depicts recipients’ overall approach to EIS, per HRSA HAB discussions with recipients July 2018 and PCN 16-02. All 4 EIS components are available at the recipient level. RWHAP, CDC or other funds may be used to pay for any of the activities included in the model. Regarding eligibility and reporting:

1. Efforts to determine RWHAP eligibility should be made throughout stages of EIS to help inform referrals and linkage to care.
2. RSR aggregate data reporting is required for all HIV tests conducted.
3. RSR client level reporting is required once individuals are determined eligible for RWHAP services.
4. For Annual Progress Reports, data can be provided on all individuals receiving EIS, in accordance with established goals/objectives.

Updated 09-06-2018
Provide- Anonymous Services, Outreach

Used to capture aggregate EIS data for outreach, HERR, linkages.
Provide- Anonymous Services, ‘Light Touch’

CAREWare for PrEP Services: PrEP Screener
CAREWare for PrEP Services: PrEP Follow Up
# Lessons Learned, Considerations, Next Steps

1. **Lessons Learned**
   - **Relationship Building**
     - Team Meetings
     - Paradigm shifts
   - **Technical Assistance**
     - Meet and Greets
     - Quarterly webinars
   - **Common Ground**
     - HIV Navigation Services
     - Community Partners

2. **Considerations**
   - **Silos**
     - Each funding stream has its own contract period
     - Service categories
   - **Contracts**
     - Consistent task
     - Single point of Contact
   - **Sub recipients**
     - Documentation
     - Invoicing

3. **Next Steps**
   - **Technical Assistance**
     - Meet and Greets
     - Quarterly webinars
   - **Data System**
     - From Many to One
     - Consistency
   - **Standards**
     - Provider Manual
     - Paradigms Shifts
synergy

ˈsinərjē/ Noun

The interaction of two or more agents to produce a combined effect greater than the sum of their separate parts
